Hi Nat,

Yes we need to have the call with HQ. The climate change section is still under construction, so all the things you mentioned are still relevant and being considered for included in the climate change section of the CEAE.

I haven't had a chance to talk to Laura Ferris yet. Would you mind contacting her, please?

Thanks!

An amazing outcome.

Also, we have a call with Justin today at 1. Is that call still relevant? The only reason we would have the discussion would be to get HQ's input on our earlier version of comments, which are no longer in here.

Thanks

## Ex. 5 Deliberative Process (DP)

I just sent the document to Darcy, Sarah B and Douglas a minute ago because my deadline was today.

Not suggesting you read the whole thing again, but maybe target certain areas. I think the Executive Summary, Intro and Conclusions and do a word search on "environmental concern" to target each finding. It's only 136 pages. I thought it would be longer. If you would like to share it with Phil, that would be fine. Or perhaps you think some changes might be needed before he sees it.

Thanks for all your help with this. I couldn't have made it through this without you!

My few suggestions in markup copy below.

## Ex. 5 Deliberative Process (DP)

I would suggest that once Nat reads this and provides input, the 'final' version is reviewed by Phil. He has a much longer and probably deeper understanding of the NEPA regs.
